

## **GAA Youth Resistance Training Course**

This course is designed to provide G.A.A. coaches working at the youth level (13-18 years of age) with the necessary knowledge and skills to deliver an appropriate Resistance Training (RT) Programme. The RT Course is designed specifically to meet the needs and demands of the Gaelic Games youth player in clubs, schools & talent academy squads. The focus of the course is to enable GAA coaches to deliver an RT Programme that is focused on improving functional strength and movement efficiency. The methodologies and exercises involved require the use of minimal equipment to enable the RT Programme to be delivered in the normal training environment of clubs, schools and development squads.

The course uses a blended learning approach of online learning, lectures, tutorials and practical sessions.

## Course content include:

- The needs and demands of the youth GAA player;
- Selecting appropriate RT Exercises for the youth player;
- How to carry out a Movement Analysis;
- Programme Design, Periodisation and Planning.
- How to progress and adapt exercises for different abilities.

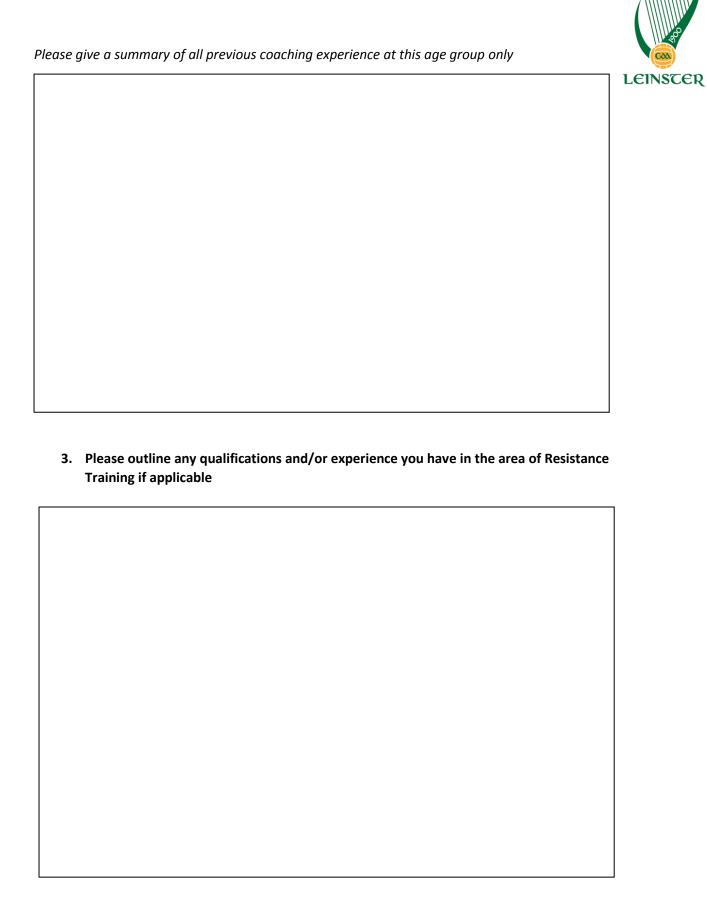

There is a large focus on the practical application of course content with a 3:1 practical to theory ratio. Assessment procedures will assess both theoretical and practical content of the course. It is desirable that applicants would have completed the GAA Award 1 Youth or Adult course and/or have knowledge and experience of the area.
